85.6%	

WORK EXPERIENCE

Quiz Application 2024

- Developed a Java-based quiz app with user authentication, rule reading, and interactive quiz features.
- Engineered result generation module for instant performance feedback upon quiz completion.

Social Blogging Platform 2023

- Developed a social blogging platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Implemented user authentication and authorization allowing users to securely login and manage their posts.
- Designed CRUD (Create, Read, Update, Delete) functionality enabling users to create, edit, and delete their posts, and view posts from other users.

News Fetching Application 2023

- Developed a news fetching application that utilizes API integration to retrieve real-time news data.
- Implemented a search bar feature allowing users to search for news articles based on specific topics.

Personal Portfolio 2023

- Created a personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, and achievements..
- The project is deployed successfully and is live at: <https://khushi-saharan.netlify.app/>
